

Global Human Resource Management

Chapter 4 — Complete HR Notes

English Headings | Roman Urdu Explanation | Examples

Exam Preparation Guide

Subject:	Human Resource Management
Chapter:	4 — Global Human Resource Management
Language:	English + Roman Urdu
Purpose:	Paper ki tayari ke liye complete notes

1. Culture and Its Dimensions

English Definition:

Culture refers to the societal forces affecting the values, beliefs, and actions of a distinct group of people. In global HRM, understanding culture is essential because management styles, employee behavior, and workplace expectations differ across countries.

Roman Urdu Mein Matlab:

Culture woh social forces hain jo logon ki values, beliefs, aur actions ko affect karti hain. Global HR mein culture samajhna zaroori hai kyunke har mulk mein kaam karne ka andaz alag hota hai.

Culture Ki 5 Dimensions (Hofstede Model):

Dimension	English Meaning	Roman Urdu Matlab
Power Distance	Inequality among people of a nation	Aamir aur ghareeb mein fark — kuch mulkon mein boss ka hukm s
Individualism	People prefer acting as individuals over groups	Apsa faisla khud karna — America mein log apne liye sochte hain,
Masculinity / Femininity	Degree to which masculine values prevail	Mardana values (competition, success) ya zenana values (caring,
Uncertainty Avoidance	Preference for structured over unstructured situations	Rules pasand karte hain ya flexibility — Japan mein high
Long-Term Orientation	Values emphasizing future vs present/past	China mein log future ke liye sochte hain (thrift, persistence) — US

Example: Japan mein Power Distance zyada hai — employees boss se seedha sawaal nahi karte. USA mein Power Distance kam hai — employees openly boss se debate kar sakte hain. Isi wajah se ek American manager ko Japan mein adapt karna mushkil hota hai.

Exam Tip: 5 dimensions yaad rakho — Power Distance, Individualism, Masculinity/Femininity, Uncertainty Avoidance, Long-Term Orientation. China = highest long-term orientation. US/Russia/France = short-term orientation.

2. Types of International Organizations

English Definitions:

Type	English Definition	Roman Urdu Matlab
Importing & Exporting	Selling and buying goods/services with organizations in other countries	Doston mulkon se cheezain kharidna ya unhe bechna — yeh international business ki cheez hai
Multinational Enterprise (MNE)	Organization with units located in foreign countries	Alag alag mulkon mein offices se kaam karta hai
Global Organization	Corporate units in many countries integrated into one system	Sab mulke ki ek hi organization milke kaam karta hai

Example — MNE vs Global: Ford Motor Company pehle MNE tha — Europe aur America ke alag alag plants alag kaam karte the. 1990s mein Ford ne Global Organization banana shuru kiya — ab sab ek integrated system ke tor par kaam karte hain.

Exam Tip: MNE = alag alag units, alag kaam. Global Organization = sab milke ek. MNE se Global Organization mein transition hoti hai jab operations integrate hote hain.

3. Types of International Employees

Teen Qisam Ke International Employees Hote Hain:

Type	English Definition	Roman Urdu Matlab	Example
Expatriate	Not a citizen of country where working	Apni mulk ki citizen nahi, doosre mulk mein kaam karta hai	American ko Japan mein kaam pe bheja
Host-Country National	Citizen of country where working	Jo mulk ka citizen hai aur wahi kaam karta hai	Pakistan ki citizen ko Japan mein kaam pe bheja
Third-Country National	Citizen of one country, working in 2nd country, employed by citizens of 3rd country	Jo mulk ka citizen hai, 2nd mulk mein kaam karta hai, 3rd mulk ke citizens ke liye	India ka citizen, ko Japan mein kaam pe bheja, Japanese company ke liye

Real Example: Japanese firms with US operations ne apne Japanese managers ko US mein bheja (Expatriates) taake woh American business practices seekh saken aur wapas Japan mein apni company ko behtar banan.

Exam Trick: Expatriate = Home country bheja. Host-Country National = local banda. Third-Country National = 3 mulk, 3 roles. Brussels example: US company ka European HQ Belgium mein — 80% professionals doosre European countries se hain = Third-Country Nationals.

4. Types of Expatriates

Chaar Qisam Ke Expatriates:

Type	English Meaning	Roman Urdu Matlab
Volunteer Expatriates	Want to work abroad for career/self-development	Apni shakhsat ke liye aur travel ke liye — ek tarah se assignment (deyana)
Traditional Expatriates	Professionals assigned to foreign ops for 1-3 years	1-3 years tak foreign ops ke liye, phir wapas — sabse common
Career Development Expatriates	Placed abroad to develop international management capabilities	International capabilities ko develop karne ke liye
Global Expatriates	Move from country to country; prefer working internationally over home country	Global hain, kisi bhi mulk mein kaam karna chahte hain

Example: Whirlpool, GTE, Quaker Oats ne retired American managers ko temporary international jobs ke liye use kiya. Yeh zyada fast aur sasta tha regular expatriate bhejne se (jo 3+ saal rehne ki umeed rakhte hain).

5. Selection for International Assignments

English Concept:

Selecting the right person for an international assignment requires more than just technical skills. HR must provide a realistic picture of life, work, and culture. Key selection competencies include Cultural Adaptability, Communication Skills, Family Factors, and EEO Concerns.

1. Cultural Adaptability — Roman Urdu:

Zyada tar international failures technical problems ki wajah se nahi hote — balke cultural adjustment ki wajah se hote hain. Employee naye mulk ki culture, customs, aur laws se adapt nahi kar pata. Organizational support bahut zaroori hai.

Example: Nigeria mein telephone system itna inefficient hai ke local calls overseas calls se mushkil hoti hain. Ek American jo US ki reliable system ka adi ho, wahan frustrated ho jayega. Isi liye cultural adaptability check karna zaroori hai.

2. Communication Skills — Roman Urdu:

Host country ki language mein bol aur likh sakna bahut zaroori hai. Bahut si companies pehle technical skills dekh ke select karti hain, phir language training deti hain (jaise Berlitz ke 10-din ke courses). Lekin language ke ilawa gestures, greetings, pace, aur proximity bhi alag hoti hai.

3. Family Factors — Roman Urdu:

International assignment lene se inkar karne ki do sabse bari wajuhat hain: family considerations aur spouse ki career. 75% expatriates married hote hain. Dual-career couples ke liye yeh aur bhi mushkil hai. Kuch international firms spouse ko bhi job dhundhne mein madad karte hain.

4. EEO Concerns — Roman Urdu:

US ka Civil Rights Act 1991 US citizens ko internationally bhi cover karta hai jo US-controlled companies mein kaam karte hain. Lekin agar foreign country ka law US EEO law se conflict kare, toh foreign law apply hoga. Agar sirf customs hain (law nahi), toh US EEO law apply hoga.

Exam Tip: Selection ke 4 main factors: Cultural Adaptability, Communication Skills, Family Factors, EEO Concerns. Sabse badi wajah failure ki = Cultural adjustment problems.

6. International Training and Development (Figure 4-6)

Teen Qisam Ki Training (Figure 4-6 Se):

Training Type	English Meaning	Roman Urdu Matlab	Key Points
Pre-Departure Orientation & Training	Training before going abroad	Bahar jane se pehle ki training	Language, Culture, History, Living Conditions
Continuing Employee Training & Development	On-Demand training while working abroad	Kaam ke dauran training jari rakhna	Refined Skills, Career Planning, Corporate Development
Repatriation Training & Development	Training when returning home	Ghar wapas aane par training	Reverse Culture Shock, Acceptance of Returnee

Repatriation — Wapsi Ki Mushkilat:

Repatriation ka matlab hai expatriates ko ghar wapas lana. Mushkilat yeh hain:

- Special compensation packages khatam ho jate hain — net income kam ho jati hai
- Closer reporting relationship — pehle zyada autonomy thi, ab kam hai
- Reverse culture shock — ghar wapas aake bhi adjust karna mushkil lagta hai

Example: Mexico mein US companies ne pehle training ignore ki kyunke workers sirf cheap labor samjhe jate the. Lekin employee turnover 20% per month tha! Jab continuous training shuru ki — productivity dramatically behtar ho gayi.

7. International Compensation

English Concept:

International compensation is extremely complex due to variations in laws, living costs, tax policies, currency fluctuations, housing, schooling, and transportation costs.

Roman Urdu Mein Matlab:

International employees ko pay karna bahut mushkil hai kyunke har mulk mein alag taxes, alag living costs, aur dollar ki value bhi upar neeche hoti rehti hai. Housing, children ki school fees, aur yearly trips home — sab consider karne padte hain.

Do Approaches:

Approach	English	Roman Urdu Matlab
Balance-Sheet Approach	Provides compensation that equalizes cost of living between home and host countries	Expatriates ko dwarka mein jata hai aur unke askar mein home aur host countries ke beech ki difference ko equalize kiya jata hai
Global Market Approach	Attracting global managers by offering competitive salaries based on global market rates	Global managers ko liye costs global market rates set ki jati hai — competitive salaries offer kiye jate hain

8. Global Employee Relations Issues

Global Health and Safety:

Safety laws vary from country to country — kuch mulkon mein strict, kuch mein bilkul nahi. HR ko har mulk ke safety rules follow karne padte hain.

International Security and Terrorism:

US firms aur unke employees ke liye terrorist threats badhte ja rahe hain. Kidnapping, bombing, extortion — sab ke baare mein aware rehna zaroori hai. Ek teen-mahine mein hundreds of terrorist acts businesses pe aim kiye gaye.

Global Labor-Management Relations:

Unions ki strength har mulk mein alag hai. China aur Africa mein unions weak hain. Europe mein unions strong hain aur political parties se linked hain. Co-determination: kuch countries mein union representatives company board mein positions rakhte hain.

Maintaining the Expatriate Employee:

Expatriates ko psychologically withdraw hone se bachana zaroori hai. Unhe 'out of sight, out of mind' feel nahi hona chahiye — regular contact aur career development zaroori hai.

Example — Security: Several hundred terrorist acts were aimed at businesses in a single 3-month period. US citizens especially face risks of kidnapping, bombing, and physical harassment.

9. The Female Factor — HR Perspective

English Concept:

Even though slightly more than half of the world's population is female, in many countries being female presents special challenges in business dealings, especially in male-dominated cultures of the Middle East, Latin America, and Asia.

Roman Urdu Mein Matlab:

Dunia ki aadhay se zyada population female hai — lekin kaafi mulkon mein aurat ka business mein kaam karna mushkil hai. Khaas kar Middle East, Latin America, aur Asia mein.

Country/Region	Challenge (Roman Urdu Mein)
Pakistan	Female pilot ne radio contact kiya — ground control ne sunne se inkar kiya. Male copilot ko landing karni pari.
Poland	Zyada tar businesspersons male hain. Sexist attitudes ko seedha challenge karna kaam nahi aata.
Egypt	Sirf 9% women paid employment mein hain. Sirf 10% managers female hain.
Saudi Arabia	Aurat akeli visa nahi le sakti. Public mein escort zaroori. Driving allowed nahi. Taxi bhi nahi milti.
Iran	Aurat se haath milana bhi extreme embarrassment ka sabab ban sakta hai.
Asia	Modest aur gentle behavior expected hai. US women ki friendly smiles ko personal invitation samjha jata hai.

Exam Tip: US businesswomen ko advice — formality ki taraf jhukna behtar hai. Dress mein longer skirts aur higher necklines. Small etiquette mistakes usually forgiven hoti hain lekin social customs ignore karna strong reactions peda kar sakta hai.

Quick Revision Table — Tamam Topics Ek Nazar Mein

Topic	Key Point	Roman Urdu Mein
Culture	Societal forces on values/beliefs/actions	Social forces jo values aur actions affect karen
Power Distance	Inequality among people	Boss aur worker ke beech ka fark
Individualism	Individual vs group preference	Apna ya group ka sochna
MNE	Units in foreign countries, operate separately	Alag alag mulkon mein alag offices
Global Org	Integrated worldwide operations	Sab milke ek organization
Expatriate	Works abroad, citizen of HQ country	Apni company ne doosre mulk mein bheja
Host-Country National	Local citizen, foreign company	Local banda, foreign company
Third-Country National	3 countries involved	Teen mulk — citizenship, kaam, company sab alag
Cultural Adaptability	Top reason for int'l failure	Culture mein fit nahi hona = failure
Repatriation	Bringing expatriates home	Expatriate ko ghar wapas lana
Balance-Sheet Approach	Equalize cost differences	Home jaisi life maintain karna abroad mein

Female Factor	Gender challenges internationally	Aurat ko business mein challenges abroad
---------------	-----------------------------------	--

Best of Luck! Chapter 4 ke tamam important concepts cover ho gaye. Definitions ke saath examples yaad rakho — paper mein dono likhna. All the best!
