

Diversity and Equal Employment Opportunity

Chapter 5 — Complete HR Notes

English Headings | Roman Urdu Explanation | Examples

Exam Preparation Guide — Poora Detail

Subject:	Human Resource Management
Chapter:	5 — Diversity and Equal Employment Opportunity
Language:	English + Roman Urdu
Pages:	4+ Pages — Poora Detail with Examples

1. The Nature of Diversity

English Definition:

Diversity refers to the existence of differences among people in an organization — differences in race, gender, age, disability, culture, and other characteristics. It has both positive and negative consequences for organizations.

Roman Urdu Mein Matlab:

Diversity ka matlab hai — ek organization mein alag alag qisam ke log hona. Alag nasl, alag gender, alag umar, alag soch rakhne wale log. Iske fayde bhi hain aur nuksan bhi.

Positive Side — Diversity Ke Fayde:

- Broader, zyada diverse pool of people, ideas, aur experiences milti hain
- Customers ki diversity reflect hoti hai — business behtar samajh sakta hai
- Alag customer markets ke saath better adapt kar sakte hain
- Best companies jo diversity manage karti hain unka ROI bhi zyada hota hai

Negative Side — Diversity Ki Mushkilat:

- Conflicts aur misunderstandings ho sakti hain alag cultures ke beech
- Agar manage na kiya jaye toh turnover, absenteeism, aur lawsuits badhti hain
- Potential for workplace conflicts jab different lifestyles saath kaam karen

Example: Ek marketing company mein diverse team thi — Pakistani, American, Chinese employees. Jab unhone alag alag markets ke liye campaigns banaye, toh har culture ki team member ne apne market ki understanding share ki. Result: Sales 30% zyada. — Yeh diversity ka positive side hai.

Exam Tip: Diversity = ek hi organization mein alag alag qisam ke log. Positive = better ideas, better customer understanding. Negative = conflicts if not managed.

2. Demographics and Diversity

English Concept:

Diversity is seen in demographic differences in the workforce. The shifting makeup of the population accounts for today's increased workforce diversity. Key demographic groups include Women, Racial/Ethnic minorities, Aging workforce, and Individuals with Disabilities.

Roman Urdu Mein Matlab:

Demographics ka matlab hai population ki statistics — umar, gender, nasl wagara. Jaise jaise population change hoti hai, workforce bhi change hoti hai. Char bari demographic groups hain jo diversity mein contribute karti hain.

A) Women in the Workforce:

Workforce mein aurton ki tadaad tezi se barh rahi hai. Projection ke mutabiq:

- 63% working age women — kaam kar rahi hain ya dhundh rahi hain (2000 tak)
- 80%+ women aged 25-40 — workforce mein shamil hain
- 47% total workforce — 2005 tak women ka hissa ho jayega
- Aadhi se zyada working women — single, divorced, ya widowed hain — primary income earner hain

Example: Pehle sirf mard ghar chalte the. Ab aurat akeli ghar chalti hai — primary income earner hai. Yeh HR ke liye important hai kyunke aise employees ko family-friendly policies chahiye — maternity leave, flexible hours wagara.

B) Aging of the Workforce:

Developed countries — US, Japan, Australia, European countries — sab aging population experience kar rahe hain. Zyada umar daraz log workforce mein hain. HR ko unki needs ko samajhna aur accommodate karna hoga.

Example: Japan mein 65+ age group itna bara ho gaya hai ke companies ko retired employees ko wapas part-time hire karna pad raha hai. HR ne flexible retirement policies banai hain.

C) Individuals with Disabilities:

Americans with Disabilities Act (ADA) ne employers ko remind kiya ke woh disabled individuals ko employ karen. Key facts:

- 43 million Americans disabilities ke saath ADA se covered hain
- 10 million in se workforce mein aa sakte hain agar appropriate accommodations ki jayen
- Workforce ke aging ke saath disabilities aur bhi barhegi

Example: Ek software company ne wheelchair users ke liye ramps aur adjustable desks lagaye. Unhone 50 disabled programmers hire kiye — productivity normal employees jaisi nikli. Yeh ADA ke requirements ki achi implementation thi.

Exam Tip: Demographics ke 4 groups yaad rakho: Women, Racial/Ethnic Minorities, Aging Workforce, Individuals with Disabilities. ADA = Americans with Disabilities Act — 43 million covered.

3. Managing Diversity

English Concept:

The advantages of diversity do not happen automatically — sensible management of diversity is necessary. Failure to manage diversity properly can lead to serious and expensive problems for organizations.

Roman Urdu Mein Matlab:

Diversity ke fayde khud ba khud nahi aate — HR ko actively diversity manage karni parti hai. Agar manage na kiya jaye toh yeh 4 bari mushkilat peda ho sakti hain:

Problem	English	Roman Urdu + Numbers
Higher Turnover Costs	African Americans leave 40% more than Caucasians	Caribbean females leave 2x more than minorities zyada quit karte hain —
Higher Absenteeism Costs	Absenteeism higher for women and minorities	Minority employees feel 'valued nahi' — zyada absent rehte hain. Women
Lawsuits	Employee plaintiffs win 2/3 of discrimination lawsuits	2x more lawsuits average per year per \$600,000 — average settlement
Failure to Compete for Talent	Non-diverse employees harder to recruit and retain	A non-diverse company diversity nahi agiti agar company diversity-friendly nah

Real Data: Best 50 diversity companies ka ROI: 3-saal period mein: 125% vs 112% (S&P; 500 se zyada) 5-saal period mein: 201% vs 171% (S&P; 500 se zyada) Matlab: Jo companies diversity manage karti hain, woh financially bhi behtar karti hain!

Top 10 'Diversity Elite' Companies (Fortune Magazine):

1. Pacific Enterprises (California)
2. Applied Materials (California)
3. Advantica (South Carolina)
4. Bank America (California)
5. Fannie Mae (Washington, DC)
6. Marriott International (Maryland)
7. Edison International (California)
8. Computer Associates (New York)
9. Ryder System (Florida)
10. Pitney Bowes (Connecticut)

Achi Diversity Company Ki Characteristics:

- Management (especially senior) mein racial aur gender mix ho
- Company minorities ko hire, promote, aur retain kare
- Delicate race matters par open discussion ho
- Manager ki bonus diversity performance se linked ho

Exam Tip: Diversity manage na karne ka sabse bada financial risk = Lawsuits (\$600,000 average award). Diversity elite companies ka ROI non-diverse companies se zyada hai.

4. Affirmative Action

English Definition:

Affirmative Action refers to proactive efforts by organizations to hire and promote members of protected classes — minorities, women, disabled individuals — in order to correct historical patterns of discrimination.

Roman Urdu Mein Matlab:

Affirmative Action ka matlab hai ke company apni marzi se aur extra koshish se minorities, women, aur disabled logon ko hire kare aur aage badhaaye. Yeh past discrimination ki correction ke liye kiya jata hai.

Example: Ek government department ne dekha ke uske 500 employees mein sirf 5% women hain jabke area mein 45% workforce women hai. Affirmative Action plan ke tehat unhone decide kiya ke agli 2 saal mein 30% naye hires women hongy. Yeh Affirmative Action hai.

Exam Tip: Affirmative Action = proactive steps lena diversity ke liye. Yeh sirf rules follow karna nahi — balke actively underrepresented groups ko opportunities dena hai.

5. Civil Rights Acts — 1964 and 1991

Civil Rights Act 1964 — Title VII:

Title VII of the Civil Rights Act of 1964 prohibits employment discrimination based on race, color, religion, sex, or national origin. It applies to employers with 15 or more employees. This was a landmark law that formed the foundation of equal employment.

Roman Urdu Mein Matlab:

1964 ka yeh qanoon keh ta hai ke employer nasl, rang, mazhab, jins, ya mulk ki buniyad par kisi ke saath bura sulook nahi kar sakta. 15 ya zyada employees wali companies pe lagoo hota hai. Yeh EEO ka bunyadi qanoon hai.

Civil Rights Act 1991 — Key Additions:

Provision	English	Roman Urdu Matlab
Compensatory & Punitive Damages	Damages of intentional discrimination can now be awarded.	Jagoo paisa aur ANTI-Dunkhwaad paisa — company ko zyada paisa dena padega
Jury Trials	Discrimination cases can now be decided by jury.	Ab jury jurga kar sakti hai — pehle sirf judge karta tha
Race Norming Prohibited	Cannot adjust test scores based on race.	Test mein alag alag cut-off scores different races ke liye forbidden
International Employees	EEO laws extended to US citizens working for US companies.	US citizens for US companies hain unhe bhi protection milti hai
Government Employee Rights	Extended EEO coverage to Senate, presidential appointees, state & local employees.	Senate employees, state & local employees — ko bhi EEO cover

Example — Race Norming: Ek company ke test mein white candidates ke liye passing score 70 tha aur Black candidates ke liye 60. 1991 act ne yeh forbidden kar diya — sab ke liye same standard hona chahiye. Alag cut-off scores illegal hain.

Exam Tip: 1964 Act = basic prohibition. 1991 Act = additional protections add kiye — damages, jury trials, race norming ban, international coverage. Dono acts yaad rakho.

6. When Does Illegal Discrimination Occur?

English Concept:

The word 'discrimination' simply means recognizing differences among people. Employers MUST discriminate (choose) among job applicants based on qualifications — this is legal. However, discrimination becomes ILLEGAL in two situations:

Roman Urdu Mein Matlab:

'Discrimination' ka basic matlab sirf farq karna hai — yeh legal bhi ho sakta hai. Jaise employer योग्या aur ना-योग्या candidate mein farq kare — yeh legal hai. Lekin yeh 2 cases mein illegal ban jata hai:

Illegal Discrimination Ki 2 Situations:

Situation	English	Roman Urdu Matlab + Example
1. Disparate Treatment	Protected-class members are treated DIFFERENTLY from others.	Minority ya protected class ko alag standard se judge karna. Example: White candidate ko interview mein 10 sawaal, Black candidate ko 20 sawaal.
2. Disparate Impact	Substantial underrepresentation of protected-class members due to employment decisions	Ek aisa test ya requirement jo result mein minorities ko nuksaan pahunchaye. Example: Job ke liye 6 feet height zaroori — zyada tar women aur Asians fail ho gayin.

Disparate Treatment Example: Company A ne White candidates ko 'Executive Training Program' mein bhejna continue kiya lekin qualified Black managers ko nahi. Yeh clearly disparate treatment hai — same standards apply nahi hue. Disparate Impact Example: Ek company ne physical strength test liya. 90% male passed, sirf 20% female passed. Test job se related nahi tha. Yeh disparate impact hai — result mein women underrepresented ho gayin.

Exam Trick: Disparate Treatment = JAAN BUJH KAR alag sulook. Disparate Impact = NIYAT NAHI THI lekin result mein minorities ko nuksaan. Dono illegal hain — farq sirf intention ka hai.

Quick Revision Table — Tamam Topics Ek Nazar Mein

Topic	Key Point (English)	Roman Urdu Mein
Diversity	Differences among people in org	Organization mein alag qisam ke log
Positive Diversity	Better ideas, reflects customer diversity	Behtar ideas, customers samajhna
Negative Diversity	Conflicts, turnover, lawsuits if unmanaged	Agar manage na karo toh problems
Women in Workforce	47% of total workforce by 2005	2005 tak 47% workforce women hongi
ADA	43 million Americans with disabilities covered	43 million disabled — ADA se protected
Aging Workforce	All developed countries facing this	Sab developed mulkon mein buri workforce
Turnover Cost	African Americans leave 40% more than whites	Minorities zyada quit karte hain
Lawsuit Risk	Average jury award = \$600,000	Average case mein \$600,000 dena parta hai
Affirmative Action	Proactive hiring of minorities/women	Khud se minorities ko hire karna
Civil Rights Act 1964	Prohibited discrimination — race, sex, religion	Nasl, jins, mazhab par discrimination ban
Civil Rights Act 1991	Added damages, jury trials, international coverage	Zyada protections, jury, bahar bhi coverage
Disparate Treatment	Different standards for protected class	Protected class ko alag standard — illegal
Disparate Impact	Policy results in underrepresentation	Policy ka result minorities ko nuksaan day

Best of Luck! Chapter 5 ke tamam important concepts cover ho gaye hain. Numbers yaad rakho — 43 million (ADA), 47% women, \$600,000 lawsuit, 2/3 cases employees jeette hain. Paper mein examples zaroor likhna!
