

CHAPTER 3

Individuals, Jobs, and Effective HR Management

Complete Notes - Roman Urdu Main

Examples aur Detailed Definitions ke sath

HR Management ke liye Complete Study Guide

TABLE OF CONTENTS

1. Individual Employee Performance
2. Productivity
3. Total Quality Management (TQM)
4. Individual/Organizational Relationships
5. Individual Motivation
6. Content Theories of Motivation
7. Job Design
8. Job Characteristics
9. Job Satisfaction
10. Absenteeism
11. Turnover
12. Effectiveness aur Efficiency

1. INDIVIDUAL EMPLOYEE PERFORMANCE

Tarif (Definition):

Fard karmchari ki kaam mein kamyabi aur nataain sirf unke abilities tak limited nahi hoti. Yeh unke motivation, support, job ke nature, aur organization ke saath unke relationship par bhi depend karti hai.

HR Unit ka Rol:

Karmchari ke performance ko analyze aur examine karna

Performance mein aarne wali problems ko identify karna

Un problems ke solutions develop aur implement karna

Organizational goals ko achieve karne mein karmchari ko guide karna

HR EXAMPLE:

Ek bank ka sales employee bahot talented hai lekin motivation nahi hai. HR department ne:

→ Pehle ushe bonus aur incentives de kar motivate kiya

→ Phir proper training aur support provide ki

→ Supervisor ko unke sath better relationship develop karna pada

→ Result: Performance improve ho gaya!

2. PRODUCTIVITY

Tarif (Definition):

Productivity ka matlab hai kaam ke quantity aur quality dono ko measure karna jo different resources (paise, time, log) use karke complete hota hai. Iska matlab kam resources use karke same ya zyada output hasil karna. Formula: $\text{Productivity} = \frac{\text{Output}}{\text{Input}}$

National Level par Importance:

Zada productivity = Higher standard of living

Wage increase ko inflation se balance rakhta hai

International competition mein strong position

Unit Labor Cost Formula:

$\text{Unit Labor Cost} = \frac{\text{Average Cost of Workers}}{\text{Average Output}}$

HR EXAMPLE:

Software company mein 10 developers hain, har month 50 bugs fix karte hain, salary Rs. 100,000 hai:

→ $\text{Unit Labor Cost} = \frac{100,000}{50} = \text{Rs. } 2000 \text{ per bug}$

→ Training de kar ek developer 100 bugs fix karne lagta hai

→ $\text{New Unit Cost} = \frac{100,000}{100} = \text{Rs. } 1000 \text{ (Better!)}$

→ Yeh productivity improvement hai

3. TOTAL QUALITY MANAGEMENT (TQM)

Tarif (Definition):

TQM ek comprehensive management process hai jo organization ke quality ko continuously improve karta hai. Yeh sirf ek program nahi hota, yeh ek culture ban jata hai jahan par har koi quality ke barey mein sochta hai.

TQM ke Key Characteristics:

Customer Focused: Har activity customers ke needs ko meet karay

Employee Involvement: Quality teams mein sab participate karen

Benchmarking: Dusre best organizations se compare karna

Continuous Improvement: Hamesha behtar hona

HR EXAMPLE:

Mobile phone company ne TQM implement ki:

→ Production team meeting lete hain - quality problems discuss karte hain

→ HR training provide karti hai quality standards par

→ Quality circles banate hain

→ Defective phones 10% se 2% aah gaye

4. INDIVIDUAL/ORGANIZATIONAL RELATIONSHIPS

Tarif (Definition):

Employee aur organization ke darmiyaan jo relationship hota hai woh continuously change kar raha hai. Pehle employees loyal rehte the, lekin ab aisa nahi hai. Employees zada frequently job change kar rahe hain.

Change ke Reasons:

Mergers aur Acquisitions - takeover se fear

Self-employment aur Contingent Work - freelancing ka trend

Outsourcing - jobs ko bahar countries mein transfer

Job Security ka Loss - layoffs aur sudden terminations

Reciprocity (Mutual Trust):

Jo organization employee ko deta hai, employee bhi utna deta hai. Agar organization job security nahi deta to employee bhi loyalty nahi dega.

PSYCHOLOGICAL CONTRACT

Tarif: Likha na likha samjhauta jo employee aur employer ke darmiyaan hota hai.

Traditional Contract:

Employer De: Competitive salary, benefits, promotion, job security

Employee De: Loyalty, hard work, skills improvement

HR EXAMPLE:

20 saal se bank manager tha, layoff ho gaya. Psychological contract break:

→ Future mein ab loyalty nahi dega

→ Company ke liye extra work nahi karega

→ Dusri job dhoondh sakta hai

5. INDIVIDUAL MOTIVATION

Tarif (Definition):

Motivation ka matlab hai kisi shakhs ke andar ek drive jo usse kaam karne ke liye encourage karta hai. Motivation nahi hoti to ability aur skills se bhi kaam improve nahi hota.

Motivation Kyun Zaroori Hai:

Performance ko improve karta hai

Compensation decisions ko affect karta hai

Turnover aur absenteeism motivation se related hain

HR EXAMPLE:

Call center mein 10 workers, same salary aur training:

→ 5 highly motivated workers - 500 calls daily

→ 5 low motivated workers - 200 calls daily

→ HR ne incentive program banaya

→ Motivation badha - Performance badh gaya

6. CONTENT THEORIES OF MOTIVATION

A. MASLOW'S HIERARCHY OF NEEDS

Tarif: Abraham Maslow ne human needs ko 5 levels mein divide kiya. Jab tak lower level ke needs puri nahi hoti, tab tak upper level motivate nahi kar sakte.

Level	Need Type	HR Examples
5	Self-Actualization	Leadership roles, creativity, best version
4	Esteem Needs	Recognition, awards, promotion, authority
3	Belonging Love	Team work, good relationships, social
2	Safety Security	Job security, benefits, insurance
1	Physiological	Salary, working conditions, facilities

HR APPLICATION EXAMPLE:

Junior employee ko motivate karne ka HR approach:

→ Level 1: Good salary, office facilities give → Satisfied

→ Level 2: Job security, health insurance → Satisfied

→ Level 3: Team building, good colleagues → Satisfied

→ Level 4: Project lead banao, recognition do → MORE MOTIVATED

→ Level 5: Management training de → MAXIMUM MOTIVATION

B. HERZBERG'S MOTIVATION/HYGIENE THEORY

Tarif: Motivators se employees motivated hote hain, lekin Hygiene Factors sirf dissatisfaction avoid karte hain - motivation provide nahi karte.

MOTIVATORS (True Motivation):

Achievement - successful projects complete karna

Recognition - award, praise, acknowledgment

Work Itself - meaningful aur interesting kaam

Responsibility - important decisions lena

Advancement - career growth aur promotion

HYGIENE FACTORS (Dissatisfaction Avoid):

Salary - competitive pay zaroori

Company Policy - clear aur fair policies

Supervision - good supervisor

Working Conditions - safe aur comfortable

Interpersonal Relations - good co-workers

KEY POINT: Hygiene factors sirf dissatisfaction avoid karte hain, extra motivation nahi dete!

HR EXAMPLE:

IT Company: Salary ache, free lunch, modern office. Lekin:

→ Employees satisfied hain (dissatisfaction nahi)

→ Lekin highly motivated nahi hain

→ HR ne recognition program aur challenging projects start kiye

→ Ab employees motivated aur productivity 40% badh gaya

7. JOB DESIGN

Tarif (Definition):

Job Design ka matlab hai kisi kaam ke tasks, duties, responsibilities ko organize karke ek productive unit banana. Yeh sirf organize karna nahi hota, balke yeh decide karna hota ke kaam kaisa structure ho taake karmchari satisfied aur motivated rahe.

Job Design Kyun Zaroori Hai:

Performance improve hota hai

Job satisfaction badh jaati hai

Health problems avoid hote hain

Turnover reduce hota hai

Job Rotation Example:

Assembly line mein John Williams:

→ Week 1: Doors attach

→ Week 2: Bumpers attach

→ Week 3: Seats install

→ Week 4: Doors par wapas

→ Result: Boring nahi lagta, more engaged rehta hai

8. JOB CHARACTERISTICS (5 Important Features)

Tarif: Agar yeh 5 elements present hain to employee automatically motivated rehta hai.

1. SKILL VARIETY

Matlab: Mukhtlif skills use karna padta ho

Example: Assembly worker (sirf bolts lagata) vs Software developer (design, code, testing) - developer ka zada skill variety

2. TASK IDENTITY

Matlab: Poore kaam ko ek sath start se end tak complete karna

Example: Customer service advocate ek customer ke poori problem solve karey vs Call center worker sirf complaint register karey

3. TASK SIGNIFICANCE

Matlab: Kaam ka impact dusre logo par

Example: Nurse ka kaam (save lives) zada significant hai vs File organizer (routine)

4. AUTONOMY

Matlab: Apni marzi se kaam karne ki azadi

Example: Manager (apne decisions) vs Factory worker (sirf instructions follow)

5. FEEDBACK

Matlab: Kaam ke barey mein immediate information

Example: Salesman (weekly sales pata) vs Researcher (2 saal baad results)

9. JOB SATISFACTION

Tarif (Definition):

Job experiences ko evaluate karke jo positive emotional state hasil hota hai usse job satisfaction kehte hain. Jab employee apne job mein happy ho to yeh organization ke liye bahut achhaa hota hai.

Job Satisfaction ke Factors:

Work Itself - interesting aur challenging ho

Pay aur Benefits - competitive salary

Career Advancement - growth opportunities

Supervision - good boss

Coworkers - friendly team

ORGANIZATIONAL COMMITMENT:

Karmchari kitna organization ke goals par believe karta hai aur uske liye kaam karna chahta hai.

HR EXAMPLE:

Hospital mein nurse:

→ Job satisfied - achhaa kaam, good pay, supportive team

→ Organizational commitment zyada

→ Extra time work karey ga, senior nurses ko train de ga

→ Long time hospital mein rahega

10. ABSENTEEISM

Tarif (Definition):

Karmchahi ka scheduled time par kaam par na hazir rehna. Nationally Rs. 505 per employee per year ka loss hota hai. 7.2 days per employee average.

Impact:

12 member unit mein 4 regularly absent → kaam complete nahi hota

Extra workers hire karne padte hain

Deadlines miss hote hain, quality suffer hoti hai

Reasons for Absences:

Reason	%	Type
Family Issues	25%	Unavoidable
Personal Illness	21%	Unavoidable
Personal Needs	20%	Semi-avoidable
Stress	17%	Avoidable
Entitlement	17%	Avoidable

Controlling Methods:

Disciplinary Approach - Warning, Suspension, Dismissal

Positive Reinforcement - Rewards for good attendance

Combination Approach - Rewards + Penalties

HR EXAMPLE:

Factory ne attendance improve karne ke liye:

→ 100% attendance = Rs. 2000 bonus

→ 1 day absence = Rs. 200 deduction

→ 5 days absence = Warning

→ Result: Attendance 60% se 90% bah gaya

11. TURNOVER

Tarif (Definition):

Jab karmchari organization se chala jata hai aur naya hire karna padta hai. Yeh costly process hota hai.

Types:

Voluntary - Karmchari apne choice se chale jaye (resignation)

Involuntary - Fired ya dismissed

NOTE: Agar low-performing workers nikal rahe hain to yeh good hai!

Causes of Voluntary Turnover:

Lack of Challenge - boring kaam

Better Opportunity - dusri company better offer

Low Pay - market rate se kam salary

Poor Supervision - bad boss

No Growth - promotion opportunities nahi

Turnover Rate Formula:

$\text{Turnover Rate} = (\text{Number of Separations} / \text{Total Employees}) \times 100$

HR EXAMPLE:

Bank mein:

→ 100 employees hain, 5 chale gaye

→ $\text{Turnover Rate} = (5/100) \times 100 = 5\%$

→ Lekin HR department mein 15% turnover

→ Signal: HR department mein problem hai

12. EFFECTIVENESS AUR EFFICIENCY

EFFECTIVENESS:

Tarif: Goals ko kitna achieve kiya. 'SAHI CHEEZ KARATE HO' ke barey mein hai.

EFFICIENCY:

Tarif: Kam resources use karke goals achieve karna. 'SAHI TAREEQE SE' ke barey mein hai.

Difference Example:

Aspect	Effective	Efficient
Definition	Goals achieve karna	Kam resources use
Sales Example	100 units target = 100 sold	100 units kam cost mein
Both?	Effective but costly	Both = Best

HR EXAMPLE:

Marketing department:

→ Target: 1000 customers acquire

→ Actual: 1000 acquire (Effective ✓)

→ Cost: Budget \$100K tha, \$150K kharch (Inefficient ✗)

→ Need: Same customers kam cost mein

BENCHMARKING:

Apne performance ko dusre 'best' organizations se compare karna. HR effectiveness check karne ka tareeqa.

Performance Measurement Process:

1. Data Collect - attendance, productivity, turnover
2. Standards Define - internal aur industry
3. Compare - our performance vs benchmarks
4. Analyze - gap identify karo
5. Improve - improvement plan

IMPORTANT FORMULAS

1. Unit Labor Cost: $\text{Average Worker Cost} / \text{Average Output}$

2. Turnover Rate: $(\text{Separations} / \text{Total Employees}) \times 100$

3. Productivity: $\text{Output} / \text{Input}$

EXAM PREPARATION QUESTIONS

LONG ANSWER (10-15 marks):

1. Individual Employee Performance ko affect karne wale factors explain karo
2. Maslow's Hierarchy explain karo aur HR applications de
3. Herzberg Theory explain karo - Motivators vs Hygiene
4. Job Design kyun important hai? Characteristics explain karo
5. Psychological Contract kya hai? Changes explain karo

SHORT ANSWER (5-7 marks):

6. Productivity aur Unit Labor Cost explain karo
7. TQM kya hai?
8. Absenteeism ke reasons aur control methods
9. Turnover types aur causes
10. Effectiveness vs Efficiency
